

According to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II

as amended.

Revision date: 25.11.2022

Supersedes Date: 10.02.2020 Version: 8.0 Printing date: 21.01.2022

Adisil pink - component A

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier:

Commercial product name: Adisil pink – component A

Duplicating silicone

1.2 Relevant identified uses of the substance or mixture and uses advised against:

Identified uses: Moulding diverse objects.

Uses advised against: None known.

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier: SILADENT Dr. Böhme & Schöps GmbH

Street / mailbox: Im Klei 26 Country code. / postal code / city: D - 38644 Goslar

Phone: Tel.: +49 (0) 53 21 / 37 79 – 0
Fax: Fax: +49 (0) 53 21 / 38 96 32
E-mail / Website: info@siladent.de - www.siladent.de

E-mail / Website: info@siladent.de - www.siladent.de - www.siladent.de - www.siladent.de - SILADENT Dr. Böhme & Schöps GmbH:

1.4 Emergency telephone number

SILADENT Dr. Böhme & Schöps GmbH: +49 (0) 53 21 / 37 79 - 0 (Mon-Fri. 8 a.m. – 4 p.m.)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture: The product has not been classified as hazardous according

to the legislation in force.

Classification according to Regulation (EC)

No 1272/2008 as amended.

Not classified

2.2 Label Elements: Not applicable

2.3 Other hazards:

Physical Hazards: No specific recommendations.

Health Hazards:

Inhalation: No specific symptoms noted.

Eye contact: No specific symptoms noted.

Skin Contact: No specific symptoms noted.

Ingestion: No specific symptoms noted.

Other Health Effects: No other information noted.

Results of PBT and vPvB assessment: This substance/mixture contains no components considered

to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of

0.1% or higher.

Endocrine Disruption - Health: The substance/mixture does not contain components

considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at

levels of 0.1% or higher.

SILADE

According to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II

as amended.

Revision date: 25.11.2022

Version: 8.0 Supersedes Date: 10.02.2020 Printing date: 21.01.2022

Adisil pink - component A

Endocrine Disruption - Environment: The substance/mixture does not contain components

> considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at

levels of 0.1% or higher.

Other hazards: No other information noted.

SECTION 3: Composition/information on ingredients

3.2 **Mixtures**

> General information: Mixture of organosiloxanes, additives.

> > No hazardous ingredients.

SECTION 4: First aid measures

General information: Move into fresh air and keep at rest. Take off contaminated

clothing and wash it before reuse. Get medical attention if

symptoms occur.

4.1 Description of first aid measures:

> Inhalation: Under normal conditions of intended use, this material is not

> > expected to be an inhalation hazard.

In case of inhalation: Move person into fresh air and keep at

rest. Get medical attention if symptoms occur.

Skin Contact: Remove contaminated clothing and shoes. Wash skin with

soap and water. Get medical attention if symptoms occur.

Wash contaminated clothing before reuse.

Eye contact: In the event of contact with the eyes, rinse thoroughly with

clean water for at least 15 minutes. Get medical attention if

symptoms occur.

Do not induce vomiting. Rinse mouth thoroughly with water. Ingestion:

Get medical attention if symptoms occur.

Personal Protection for First-aid

Responders:

First Aid responders should pay attention to self-protection and use the recommended protective clothing (chemical

resistant gloves, splash protection). Refer to sections 5 and 8 for information on emergency procedures and protective

equipment.

4.2 Most important symptoms and effects, both

acute and delayed:

Any important symptoms and effects are described in Section

11 (Toxicological information) of this SDS.

4.3 Indication of any immediate medical attention and special treatment needed:

Notes to the physician:

No specific recommendations.

Show this Safety Data Sheet to the attending physician.

SECTION 5: Firefighting measures

5.1 Extinguishing media

> Suitable extinguishing media: Water spray, foam, dry powder or carbon dioxide.

Unsuitable extinguishing

Avoid water in straight hose stream; will scatter and spread media: fire.

SILADENT
Page 3 of 10

According to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II

as amended.

Revision date: 25.11.2022

Supersedes Date: 10.02.2020 Version: 8.0 Printing date: 21.01.2022

Adisil pink - component A

5.2 Special hazards arising from the substance or mixture:

Product will burn under fire conditions. Thermal decomposition or combustion may liberate carbon oxides, silicon oxides and other toxic gases or vapours.

5.3 Advice for firefighters:

Special protective equipment for firefighters:

Use standard firefighting procedures and consider the hazards of other involved materials. Remove undamaged containers from fire area if it is safe to do so. Evacuate to a safe location and contact the emergency services. Water spray should be used to cool containers.

Collect contaminated fire extinguishing water separately. Do

not allow entering drains or surface water.

Special protective equipment for firefighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:

Personnel not required or not equipped with personal protection should be evacuated from the area. Caution: Contaminated surfaces may be slippery. Follow safe handling advice and personal protective equipment recommendations. Avoid contact with eyes, skin, and clothing. Provide good ventilation. Avoid inhalation of vapours, mists or dusts. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Prevent further leakage or spillage if safe to do so. Alert the Health, Safety & Environmental department of spill.

6.2 Environmental Precautions:

Do not release into the environment. Do not discharge into drains, water courses or onto the ground. Collect spillage. Use containment for a large spill. Notify relevant authorities if this material is released to the environment.

6.3 Methods and material for containment and cleaning up:

Access to contaminated area only to authorized people. Absorb with sand or other inert absorbent. Shovel up and place in a container for salvage or disposal. For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Never return the spilled product to its original container for reuse. Containers with collected spillage must be properly labelled with correct contents and hazard symbol. Container must be kept tightly closed. To clean the floor and all objects contaminated by this material, use an appropriate solvent (see § 9). Flush area with plenty of water. Ensure that waste and contaminated materials are collected and removed from the work area as soon as possible in a suitably labeled container. Dispose of residue in accordance with regulations in force.

6.4 Reference to other sections:

Please observe the important information mentioned in the other sections. In particular, information on exposure controls/personal protection and disposal considerations can be found under sections 8 and 13.

According to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II

as amended.

Revision date: 25.11.2022 Supersedes Date: 10.02.2020

Version: 8.0

Printing date: 21.01.2022

SECTION 7: Handling and storage

Adisil pink - component A

Precautions for safe handling Precautions:

Avoid inhalation of vapours/aerosols/dusts and contact with skin and eyes. Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded. If ventilation is insufficient, suitable respiratory protection must be provided. See Section 8 of the SDS for Personal Protective Equipment. Provide eyewash station and safety shower and ensure that their location are labelled conspicuously. Limit the quantities of product in the work area to those which are necessary for the work in hand. Handle in accordance with good industrial hygiene and safety practices. Handle and open container with care. Protect from contamination. Do not mix with incompatible materials. For further information, refer to section 10: "Stability and Reactivity". Take care to prevent spills, waste and minimize release to the environment. In case of spills, beware of slippery floors and surfaces

Hygiene measures: Always observe good personal hygiene measures, such as

washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

7.2 Conditions for safe storage, Store in accordance with local/regional/national regulations. including any incompatibilities: Avoid discharge into drains, water courses or onto the

ground. Provide impermeable soil. Store in a dry place. Store in a well-ventilated place. Keep container tightly closed. Keep in properly labelled containers. Keep above the chemical's freezing point. Protect against physical damage and/or friction. Store away from incompatible materials. For further information, refer to section 10: "Stability and Reactivity".

Packaging frequently used at our sites: Polyethylene. Plastic lined steel drum.

Lagerklasse: Es liegen keine Daten vor.

No data available. **Storage Class:**

7.3 Specific end use(s): No specific recommendations. See the technical data sheet

on this product for further information.

SECTION 8: Exposure controls/personal protection

Control Parameters:

Occupational Exposure Limits: None of the components have assigned exposure limits.

Monitoring methods: Ensure workers' exposure monitoring in accordance with

national and European regulations in force, in particular

Directives 98/24/EC and 2004/37/EC.

8.2 **Exposure controls:**

According to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II

as amended.

Revision date: 25.11.2022

Supersedes Date: 10.02.2020 Version: 8.0 Printing date: 21.01.2022

Adisil pink - component A

Appropriate engineering controls:

Use engineering controls to reduce air contamination to permissible exposure level. The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Engineering controls are always preferable to personal protective equipment. Control measures to consider: Provide adequate ventilation. In case of inadequate ventilation: Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

Individual protection measures, such as personal protective equipment:

Avoid inhalation of vapours/aerosols/dusts and contact with skin and eyes. Personal protective equipment should be chosen according to applicable standards, adapted to the conditions of use of the product and in discussion with the supplier of the personal protective equipment.

Eye/face protection: Safety Glasses with side shields.

Skin protection: Hand Protection:

This recommendation is valid only for the product named in this safety data sheet supplied by us, and only for the indicated intended use purposes. In case this product will be mixed with other substances, you need to contact a supplier of CE approved protective gloves in order to determine the

appropriate gloves.

Prolonged or repeated contact:

Material: Nitrile.

Glove thickness: 1,25 mm Guideline: EN374-3

Short contact:

Material: Nitrile / Neoprene Glove thickness: 0,198 mm Guideline: EN374-3

Skin and Body Protection:Wear appropriate clothing to prevent any possibility of skin

contact. Isolate contaminated clothing and wash before reuse. In case of splashes: Wear apron or special protective

clothing.

Respiratory Protection: If engineering controls do not maintain airborne

concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Use the following CE approved airpurifying respirator: Breathing apparatus with combined filter type ABEK. Wear respiratory protection with combination filter (dust and gas filter) during operations leading to the formation

of dust/aerosols.

Environmental Controls: See sections 7 and 13 of the Safety Data Sheet.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance:

Physical state:

Form:

Colour:

Odour:

Uiquid

Viscous

White

Odourless

pH: By definition, pH measurement consists in the determination

of hydrogen ions concentration in solution, generally aqueous. Silicones products are hydrophobic and therefore, not soluble in water. By consequence, it is not possible to

measure the pH value.

Melting point/freezing point:No data available. **Boiling Point:**No data available.

Flash Point: > 200 °C (Closed cup according to method ASTM D56.)

Evaporation Rate:

Flammability:

No data available.

Vapour pressure:

Vapour pressure:

Relative vapour density:

No data available.

No data available.

No data available.

No data available.

Density: Approximate 1,05 kg/dm3 (20 °C)

Solubility(ies):

Solubility in Water: Practically Insoluble

Solubility (other): Diethylether: Miscible (in all proportions).

Chlorinated solvents: Miscible (in all proportions). Aromatic hydrocarbons: Miscible (in all proportions). Aliphatic hydrocarbons: Miscible (in all proportions).

Acetone: Very slightly soluble Ethanol: Very slightly soluble

Partition coefficient (n-octanol/water): No data available.

Self Ignition Temperature: $> 400 \, ^{\circ}\text{C}$ Decomposition Temperature: $> 200 \, ^{\circ}\text{C}$

Kinematic viscosity: Approximate 4 800 mm2/s (20 °C)

Particle characteristics: Not applicable.

9.2 Other information:

Dynamic viscosity: Approximate 5 000 mPa.s

Oxidizing properties: According to the data on the components

Not considered as oxidizing.

(evaluation by structure-activity relationship)

SECTION 10: Stability and reactivity

10.1 Reactivity: Not relevant.

10.2 Chemical Stability: Stable.

10.3 Possibility of hazardous Reactions: No data available.

10.4 Conditions to Avoid:No other information noted.

10.5 Incompatible Materials: Strong oxidizing agents.

According to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II

as amended.

Revision date: 25.11.2022

Version: 8.0 Supersedes Date: 10.02.2020 Printing date: 21.01.2022

Adisil pink - component A

10.6 Hazardous Decomposition

Products:

Oral:

Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Amorphous silica.

Not classified for acute toxicity based on available data.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008:

Acute Toxicity:

Dermal: Not classified for acute toxicity based on available data.

Inhalation: Not classified for acute toxicity based on available data.

Repeated Dose Toxicity: No data available.

Skin Corrosion/Irritation: No data available.

Serious Eye Damage/Eye Irritation:

Product:

No data available.

Respiratory or Skin Sensitisation: No data available.

Germ Cell Mutagenicity:

In vitro: No data available.

In vivo: No data available.

Carcinogenicity: No data available.

Reproductive Toxicity:

Fertility: No data available.

Teratogenicity: No data available.

Specific Target Organ Toxicity - Single

Exposure:

No data available.

Specific Target Organ Toxicity - Repeated

Exposure:

No data available.

Aspiration Hazard: No data available.

11.2 Information on other hazards:

Endocrine disrupting properties: No data available.

SECTION 12: Ecological information

12.1 Toxicity:

Acute toxicity:

Fish: No data available.

Aquatic Invertebrates: No data available.

Aquatic plants: No data available.

Toxicity to microorganisms: No data available.

SILADEN

Printing date: 21.01.2022

Chronic Toxicity:

Fish: No data available.

No data available. **Aquatic Invertebrates:**

12.2 Persistence and Degradability:

Stability in water: No data available. **Biodegradation:** No data available. **BOD/COD Ratio:** No data available.

12.3 Bioaccumulative Potential:

Bioconcentration Factor (BCF): No data available.

Partition coefficient (n-octanol/water): No data available.

12.4 Mobility in Soil: No data available.

12.5 Results of PBT and vPvB assessment: No data available.

12.6 Endocrine disrupting properties: No data available.

12.7 Other adverse effects: No data available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods Do not empty into drains. The user's attention is drawn to the

possible existence of local regulations regarding disposal. Please observe the important information mentioned in the other sections. In particular, information on hazards identification and product stability and reactivity under

sections 2 and 10.

Disposal methods: Dispose of waste at an appropriate treatment and disposal

> facility in accordance with applicable laws and regulations, and product characteristics at time of disposal. Incinerate in

suitable combustion chamber.

Contaminated Packaging: Contaminated packages should be as empty as possible.

> Recycle following cleaning or dispose of at an authorised site. Packaging that cannot be cleaned should be disposed of in

the same way as the product it contained.

Waste code: The waste code of the European Waste Catalogue (EWC)

> cannot be determined for this product, as its determination depends on how the material is used by the end-users. The waste code has to be determined within the EU in agreement

with the waste-disposal operator.

SECTION 14: Transport information

ADR: Not regulated.

ADN: Not regulated.

RID: Not regulated.

IMDG / IMO Not regulated.

According to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II as amended.
