Pressurised container: May burst statements Keep away from heat, hot surface smoking. Do not spray on an open flame or Do not pierce or burn, even after o	CLP regulation. Danger. if heated. es, sparks, open flames and other ignition sources. No other ignition source.

Page 2 of 9 Printing date: 15.05.2023

Additional information:

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking. Keep out of the reach of children

2.3 Other hazards: Results of PBT and vPvB assessment: PBT:

vPvB:

Not applicable. Not applicable.

12

SECTION 3: Composition/information on ingredients

3.2 Chemical characterization :

Mixtures

Description:

Mixture of substances listed below with non-hazardous additions.

Dangerous components		
CAS: 106-97-8	isobutane	50-100%
EINECS: 203-448-7	Elam Gas 1 H220: Press Gas H280	
Index number: 601-004-00-0	Y Flam. Gas 1, H220; Press. Gas, H280	
RTECS: TZ 4300000		
CAS: 64-17-5	ethanol	2.5-10%
EINECS: 200-578-6		
Index number: 603-002-00-5	Flam. Liq. 2, H225	
RTECS: KQ 6300000		
Reg.nr.: 01-2119457610-43-XXXX		

Additional information:

For the wording of the listed risk phrases refer to section 16.

SEC	TION 4: First aid measures	
4.1	Description of first aid measures After inhalation:	Supply fresh air; consult doctor in case of complaints.
	After skin contact:	Generally the product does not irritate the skin.
	After eye contact:	Rinse open eye for several minutes under running water.
	After swallowing:	If symptoms persist consult doctor.
	Information for doctor:	
4.2	Most important symptoms and effects, both acute and delayed	No further relevant information available.
4.3	Indication of any immediate medical attention and special treatment needed	No further relevant information available.
SEC	TION 5: Firefighting measures	*
5.1	Extinguishing media Suitable extinguishing agents:	CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
5.2	Special hazards arising from the substance or mixture:	No further relevant information available.

Revision: 18.04.2023 Version number 5 (replaces version 4) MarmoScan-Spray Basic Page 3 of 9 Printing date: 15.05.2023

.

5.3	Advice for firefighters Protective equipment:	No special measures required.
SEC	TION 6: Accidental release measures	
6.1	Personal precautions, protective equipment and emergency procedures:	Wear protective equipment. Keep unprotected persons away.
6.2	Environmental precautions :	Do not allow to enter sewers / surface or ground water.
6.3	Methods and material for containment and cleaning up:	Ensure adequate ventilation.
6.4	Reference to other sections:	See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information
SEC	TION 7: Handling and storage	*
7.1	Precautions for safe handling:	Keep away from heat and direct sunlight. Use only in well ventilated areas.
	Information about fire- and explosion protection:	Do not spray onto a naked flame or any incandescent material. Keep ignition sources away - Do not smoke. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use.
7.2	Conditions for safe storage, including any inco Storage:	mpatibilities
	Requirements to be met by storerooms and receptacles:	Store only in the original receptacle. Observe official regulations on storing packagings with pressurised containers.
	Information about storing in one common storage facility:	Not required.
	Further information about storage conditions:	Keep container tightly sealed.
7.3	Specific end use(s):	No further relevant information available.
SEC	TION 8: Exposure controls/personal protection	*
81	Control parameters:	

8.1 Control parameters:

	Ingredients v	vith limit values that require monit	toring at the workplace:
	64-17-5 ethar	nol	
	WEL	Long-term value: 1920 mg/m ³ , 100	00 ppm
	Additional in	formation:	The lists valid during the making were used as basis.
8.2		ntrols: engineering controls: otection measures, such as perso	No further data; see item 7. nal protective equipment
	General prot	ective and hygienic measures:	Wash hands before breaks and at the end of work.
	Respiratory	protection:	Not required.

Page 4 of 9 Printing date: 15.05.2023

Hand protection:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

11

For the permanent contact in work areas without heightened risk of injury (e.g. Rubber gloves Laboratory) gloves made of the following material are suitable: Rubber gloves For the permanent contact gloves made of the following materials are suitable: Neoprene gloves As protection from splashes gloves made of the following materials are suitable: Nitrile rubber, NBR. As protection from splashes gloves made of the following materials are suitable: Nitrile rubber, NBR. Eye/face protection: Not requested. SECTION 9: Physical and chemical properties General information on basic physical and chemical properties General information: White Odour: Alcohol-like Odour threshold: Not determined. Melting point/freezing point: Undetermined. Boiling point or initial boiling point and boiling range: -48 °C Flammability: Extremely flammable liquefied gas.		Material of gloves:	The selection of suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.
without heightened risk of injury (e.g. Laboratory) gloves made of the following material are suitable: For the permanent contact gloves made of the following materials are suitable: Neoprene gloves As protection from splashes gloves made of the following materials are suitable: Nitrile rubber, NBR. 9.2	Other information	
	Appearance:	
	Form:	Compressed liquefied gas
	Important information on protection of health ar	
	Auto-ignition temperature:	Product is not selfigniting.
	Explosive properties:	Product is not explosive. However, formation of
		explosive air/vapour mixtures are possible.
	Solvent content	
	Organic solvents:	10.5 %
	VOC (EC):	95 %
	Solids content:	6 %
	Change in condition	
	Evaporation rate:	Not applicable.
	Information with regard to physical hazard class	
	Explosives:	Void
	Flammable gases: Aerosols:	Void
	Aerosois:	Extremely flammable aerosol.
	Oxidising gases:	Pressurised container: May burst if heated. Void
	Gases under pressure:	Void
	Flammable liquids:	Void
	Flammable solids:	Void
	Self-reactive substances and mixtures:	Void
	Pyrophoric liquids:	Void
	Pyrophoric solids:	Void
	Self-heating substances and mixtures	Void
	Substances and mixtures, which emit	Void
	flammable gases in contact with water:	
	Oxidising liquids:	Void
	Oxidising solids:	Void
	Organic peroxides:	Void
	Corrosive to metals:	Void
	Desensitised explosives:	Void

SECTION 11: Toxicological information 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

18

Page 6 of 9 Printing date: 15.05.2023

		*
	Acute toxicity:	Based on available data, the classification criteria are not met.
	Skin corrosion/irritation:	Based on available data, the classification criteria are not met.
	Serious eye damage/irritation:	Based on available data, the classification criteria are not met.
	Respiratory or skin sensitisation:	Based on available data, the classification criteria are not met.
	Germ cell mutagenicity:	Based on available data, the classification criteria are not met.
	Carcinogenicity:	Based on available data, the classification criteria are not met.
	Reproductive toxicity:	Based on available data, the classification criteria are not met.
	STOT-single exposure:	Based on available data, the classification criteria are not met.
	STOT-repeated exposure:	Based on available data, the classification criteria are not met.
	Aspiration hazard:	Based on available data, the classification criteria are not met.
	Information on other hazards Endocrine disrupting properties:	None of the ingredients is listed.
	TION 12: Ecological information	
12.1	Toxicity Aquatic toxicity:	No further relevant information available.
12.2	Persistence and degradability	The single components are biodegradable
12.3	Bioaccumulative potential	No further relevant information available.
12.4	Mobility in soil	No further relevant information available.
12.5	Results of PBT and vPvB assessment: PBT: vPvB:	Not applicable. Not applicable.
12.6	Endocrine disrupting properties:	For information on endocrine disrupting properties see section 11.
12.7	Other adverse effects	No further relevant information available.
	Additional ecological information General notes:	Water hazard class 1 (German Regulation) (Self- assessment): slightly hazardous for water: Do not allow undiluted product or large quantities of it to reach ground

water, water course or sewage system.

Revision: 18.04.2023 Version number 5 (replaces version 4) MarmoScan-Spray Basic Page 7 of 9 Printing date: 15.05.2023

.

13.1	Waste treatment methods Recommendation	Must not be disposed together with household garbage. Do not allow product to reach sewage system.
	Uncleaned packaging – Recommendation:	Disposal must be made according to official regulations
	TION 14: Transport information	
14.1	UN-Number ADR, IMDG, IATA	UN1950
14.2	UN proper shipping name ADR IMDG IATA	1950 AEROSOLS AEROSOLS AEROSOLS, flammable
14.3	Transport hazard class(es) ADR	
	Class: Label: IMDG, IATA	2 5F Gases 2.1
	Class: Label:	2.1 Gases. 2.1
14.4	Packaging group: ADR, IMDG, IATA:	Void.
14.5	Environmental hazards: Marine pollutant:	No.
14.6	Special precautions for user	Warning: Gases.
	Hazard identification number (Kemler code): EMS Number:	- F-D,S-U
14.7	Maritime transport in bulk according to IMO instruments:	Not applicable.
	Transport/Additional information: ADR	
	Excepted quantities (EQ):	Code: E0 Not permitted as Excepted Quantity
	IMDG Limited quantities (LQ): Excepted quantities (EQ):	1L Code: E0 Not permitted as Excepted Quantity

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Labelling according to Regulation (EC) No GHS label elements 1272/2008:

Hazard pictograms:

Signal word:

Danger.

Hazard statements: H222 H229	Extremely flammable aerosol. Pressurised container: May burst if heated.
Precautionary statements	
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P211	Do not spray on an open flame or other ignition source.
P251	Do not pierce or burn, even after use.
P410+P412	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.

Directive 2012/18/EU

Qualifying quantity (tonnes) for the application of lower-tier requirements 150 t Qualifying quantity (tonnes) for the application of upper-tier requirements 500 t

Chemical safety assessment:

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases:

H220	Extremely flammable gas.
H225	Highly flammable liquid and vapour.
H280	Contains gas under pressure; may explode if heated.

Recommended restriction of use:

Product only for professional use

Abbreviations and acronyms:
