Individual protection measures, such as personal protective equipment

Eye/face protection:	Wear eye/face protection.
Hand protection:	Wear suitable protective gloves. To protect against splashes: butyl; EN 374. To protect against immersion: butyl; 0.7 mm or thicker, EN 374. The suitability of gloves should be agreed with the manufacturer. Change gloves in the event of contamination or if the breakthrough time is exceeded. Resistance of the glove material: see information from the glove manufacturer.
Skin protection:	Flame-retardant protective clothing. Wear anti-static footwear and clothing.

**Respiratory protection:** 

Date of printing: 08.05.2023 Page: 5 / 10

Wear suitable respiratory protection if technical measures are inadequate or not in place and exposure is to be expected that exceeds the DNEL (derived exposure level below which the substance does not cause any harm to human health). A suitable breathing mask with filter type A (EN141 or EN405) is recommended. A self-contained breathing apparatus may be necessary if particularly high vapour concentrations are formed.
